
Road Trip Nation

FOR TEACHERS OF 9/10 GRADE LEVEL AVID STUDENTS

ABOUT ROADTRIP NATION

The idea for the Roadtrip was simple: if you don't know what to do with your life, go out and talk to people who are doing what they love and ask them how they got there. Roadtrip Nation is an independent organization that empowers students to define their own roads in life through resources such as its annual PBD television series, live campus events, nationally publicized books, multi-media content, and an innovative educational curriculum.

The goals of the *Roadtrip Nation Experience* are:

- Increase relevance in students' educational experience by connecting them to the real world via RTN experiential-learning programs and engaging multi-media content.
- Broaden student exposure to pathways and opportunities that relate to their individual passions and interests.
- Develop students' 21st century skills by leveraging RTN programs and resources that guide them in researching, project management, communication, teamwork, leadership, as well as technology and written communication skills.

What Region 4 AVID teachers and students have to say about the experience:

- "My AVID students discovered who they really are because of the RTN program."
- "Through the RTN experience the doors of exploration have been opened to new possibilities for our youth."
- "It opened my eyes to the real world."
- "I discovered the true path to my future."
- "It helped me discover things about myself."
- "The RTN book has helped me so much, I feel like I have the confidence to do and say what I want to do."

Wednesday, September 16, 2010
