

Dear AVID Educators,

A major key to the success of an AVID program lies in recruiting. AVID students must have the academic potential to succeed and be able to respond to the demands of rigorous curriculum. They need to have desire and determination. AVID is for ordinary students who can be empowered to achieve extraordinary things.

This packet was created with the goal of helping you to select qualified students and to provide materials that will assist you during the recruitment process. You will find the following:

- Guidelines for recruitment
- School samples
- Ready-to-use masters

Please contact your AVID Regional Coordinator if you have any questions or suggestions.
